THE WESTERN TERRITORIES.

A comparative statement of the area of the present States with that of the territory destined to be erected into States exhibits the interesting fact that the area of the latter in square miles exceeds that of the former. The superficial area of the Territories, organized and unorganized, is set down as follows:

| Square miles. | Square miles. | 136,000 | New Maxico Territory | 210,000 | 141,000 | Nebraska do 523,000 | 227,000 | Mesila do 75,000 | 113,000 | Indian do 187,000 | Minnesota do Oregon do Washington do Utah do Square miles 1.807.00 To these Dacotah is to be added, of the extent of which we have

een no estimate.

The superficial area of the present States is as follows: | Square miles. | 30,000 | Delaware. | 9,200 | Maryland. | 7,500 | Virginja. | North Carolina. | 46,674 | South Carolina. | 46,685 | Alabama | 8,320 | Florida. | 46,000 | Louislana. | Square miles. 2,120 9,674 61,352 45,000 Rhode Island Connecticut Vermont. New York. New Jersey Pennsylvania Ohio Indiana Illinois Wisconsin Michigan Iowa California. Florida . . . Louisiana . Arkansas . Mississippi . Missouri .

838,820 622,190

1,461,010 It is seen that the area of Kansas is nineteen thousand square miles greater than that of all New England, New York, and New Jorsey; and that the area of Nebraska is ninety-sive thousand miles greater than that of all the non slaveholding States except California. Oregon is nearly equal in extent to all. New England, New York, Pennsylvanis, Oljio, and Indiana. It is possible that New Mexico and Mesilia will be embraced in one territorial organization by Congress at the present seasion, containing 289,000 square miles—exceeding all New England, New York, Pennsylvanis, Ohio, Indiana, and Illinois. Washington exceeds in extent all New England and New York.
